PROFESSIONAL SUMMARY

Data scientist with **6+ years** of experience in the field of Adobe Paid Media, Intuit Accountant Sales team, Pharma Real World Evidence, Automation and Sales, and experience across GenAI and Agentic Development; currently supporting Veeam Software's global B2B sales organization through LatentView Analytics. Specializes in customer-journey and funnel analytics, experimentation and A/B testing, causal inference, exploratory data analysis, and anomaly root-cause analysis, with a track record of moving reporting from descriptive dashboards toward causal measurement that informs growth strategy. Hands-on daily with agentic AI (Claude Code, MCP development) to build agents and accelerate analytics delivery.

TECHNICAL SKILLS

Languages & Query: SQL, Python (pandas, statsmodels, scikit-learn), SAS, R

Agentic AI & Productivity: Claude Code, MCP (Model Context Protocol) development, AI agents, Claude API, retrieval-augmented generation (RAG), GitHub

Data Platforms: Databricks (Spark), Postgres, Salesforce

BI & Visualization: Power BI, Tableau, Excel

Experimentation & Statistics: A/B testing, holdout and incrementality testing, experimental design, exploratory data analysis (EDA), hypothesis testing, time-series forecasting

Machine Learning: Logistic and linear regression, random forest, gradient boosting, k-means clustering

PROFESSIONAL EXPERIENCE

LatentView Analytics, San Francisco Bay Area

May 2025 – Present

Operations Research Analyst, Revenue Intelligence (data science consulting: Adobe, Veeam Software, Intuit)

Veeam Software:

- Building MCP (Model Context Protocol) servers and AI agents on Databricks, including a **Customer 360** churn-intelligence agent in Microsoft Teams that gives sales reps and solution engineers live updates directly from the agent, cutting turnaround time for customer-facing roles and speeding customer response.
- Partnered with **30+ stakeholders** globally from Finance, Sales & Marketing teams to drive end-to-end analytics for the Global Sales and Insights Organization.
- Delivered **weekly narratives** to Finance leadership on marketing initiatives and their impact on sales leads, connecting the agent insights and stakeholder analytics into a single summary for executives.

Adobe:

- Leveraged agentic AI tools to automate the RCA process to identify fluctuations in **CPI** due to varying paid media spend.
- Performed end-to-end analytics for the Paid Media team on how spend is driving mobile installations in various regions and prepared executive-ready insights.
- Worked on an early dormancy detection model for the lifecycle marketing team, understanding what signals can be used to detect early dormancy.

Intuit:

- Partnered with **6+ sales and business organizations**, building entity-resolution pipelines across **1M+ records** that improved matching accuracy by **30%**, and presented executive leadership with strategic insights that shaped sales strategy.

Chryselys, Hyderabad, India

Nov 2022 – Aug 2023

Senior Analyst, Business Analytics

- Closed IQVIA data gaps with web scraping and fuzzy-logic matching, raising NPI mapping accuracy by **60%** so field teams could reach the right providers.
- Built a journey framework tracing **10 key healthcare encounters** (5 preceding, 5 following each administration) across integrated client and IQVIA data, surfacing the referral patterns and adoption drivers that guided field strategy.
- Designed wireframes and built a validation interface generating descriptive statistics and key quality checks, with documented workflows enabling quick decisions across teams.

- Presented weekly readouts on patient trends, therapy adoption, and provider networks, and co-authored a patient-journey research paper presented at the **PMSA Annual Conference 2023**.

ZS Associates, Pune, India

Mar 2022 – Nov 2022

Decision Analytics Associate Consultant

- Streamlined commercial data aggregation for Key Opinion Leader targeting that contributed to a **15% increase in Ozempic prescriptions** in Q2 2022.
- Established Salesforce data-governance processes with Agile Python/VBA automation, achieving a **100% reduction in manual errors** and saving **12 hours per associate weekly**.
- Coordinated a team of **5 associates** through requirements, user acceptance testing, and troubleshooting with onshore stakeholders for on-time delivery.

Mu Sigma, Bengaluru, India

Jan 2019 – Mar 2022

Decision Scientist

- Reproduced a randomized melanoma trial's results from observational real-world data, validating RWE causal methodology against experimental ground truth.
- Designed hypothesis tests and two-arm treatment-cohort comparisons (the same inferential framework as A/B testing, applied to observational data), and researched and presented RWE strategies for FDA label-extension protocols.
- Built Kaplan-Meier and Cox proportional-hazards models on Flatiron data comparing on-label vs. off-label outcomes, stratified by clinical and demographic variables, with cohorts identified from Dx/Rx codes.
- Designed data-governance and QA workflows in SAS and Python cutting errors and analysis time by **over 90%**, with reusable documented scripts adopted across multiple teams.
- Automated patient-pool extraction, cost, incidence, prevalence, and survival-modeling workflows, saving **1+ workday per project**.

INDEPENDENT DATA SCIENCE PROJECTS

ClipShuttle: Adobe Premiere Pro extension (CEP), andey0saikiran.github.io/clipshuttle

2026

- A working tool a video editor uses daily, shipped in Adobe's own ecosystem, saving about **25 minutes per import**: free, open-source Adobe CEP panel importing YouTube footage directly into Premiere Pro; **v1.0** with a one-click installer, built end-to-end with Claude Code.

Tableau Workbook Auditor, tableau-lineage.com

2026

- Cuts hours of manual workbook forensics down to **minutes**: free, fully client-side auditor with dead-field detection, duplicate calculations, a **15-rule performance lint**, workbook diffing, and an interactive dependency graph; nothing is uploaded. **10.5K+ unique visitors** in the first month; ships an MCP server.

EDUCATION

D'Amore-McKim School of Business, Northeastern University, Boston, USA

Sep 2023 – Dec 2024

Master of Science in Business Analytics

International Institute of Information Technology, Bengaluru, India

Jan 2020 – Sep 2021

Post Graduate Diploma in Machine Learning and Artificial Intelligence

GITAM University, Visakhapatnam, India

May 2014 – May 2018

Bachelor of Technology, Electronics and Communication Engineering

CERTIFICATIONS, AWARDS AND PUBLICATIONS

Claude Certified Architect, Foundations (CCA-F), Anthropic, 2026. Verify: verify.skilljar.com/c/k349stsp9ezx

Impact Award, Mu Sigma, 2021: founding member of the "Creating Order Out Of Chaos" (COOOC) initiative; created and implemented its governance framework.

Spot Award, Mu Sigma, 2021: key contributor to the team's 2020 automation goals.
